M P Jain & S N Jain

Principles of Administrative Law, 7/e

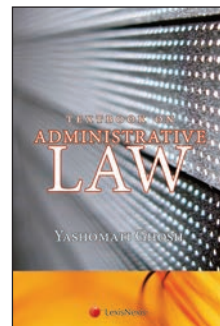

“M P Jain and S N Jain’s Principles of Administrative Law was conceived as that authoritative text book which would assist both novice and scholar to understand the principles of Administrative Law both generically and how they apply to a particular field of law. This seventh edition of the established authority has been revised by Professor Amita Dhanda to show the reader how the Courts have refined the enunciation and application of the Principles of Administrative Law as the face of the Indian State changed from the days of the license raj to the times of public disinvestment. It points out how the tasks of seeking accountability have altered when performed by restraintivist or activist courts. Public Interest Litigation allowed the less privileged to reach the doors of the court and the right to information allowed people to access the data without which judicial review could not provide the much needed relief.”

Conflict of Laws, 3/e

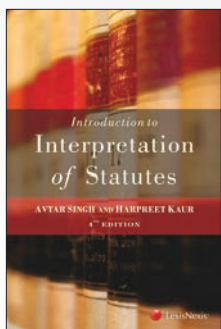

This comprehensive book considers international conventions in the field, the law in England, the law in some Common Law countries and the law in India. Apart from some provisions in the Code of Civil Procedure relating to the enforcement and execution of foreign judgments, and the laws relating to foreign awards, there are few Indian decisions on the subject. It is, therefore, absolutely necessary to consider the rules of law developed in England and other Common Law countries as well as the International Conventions laying down conflict of laws rules in several fields. Such conventions offer guidance to our courts as they lay down what our Supreme Court has called 'transnational' rules of law. There is a detailed synopsis at the beginning of each chapter setting out its contents in detail.
